

Lessons learned in 2018?

Asked in downtown Chico

Scott Miller
retired programmer

I learned that there's always something on the other side of the bridge. We always have obstacles in life, but go through them because that's the only way to find what's on the other side.

Maitreya Badami
professor

I learned that people can respond in amazing ways to impossible situations. I'm specifically referring to the Camp Fire and how impossible it is and seems still, but how amazing our community has been in response to it.

Molly Jolliff
resource specialist

I've learned that we are much more capable than we realize. When asked to, we can step up to any task, individually and as a community.

Amanda Shaw
homeless

I've learned that the community has the ability to pull together. After the Camp Fire, there was a big outpouring of community sharing and loving that I haven't seen in 15 years.
