

Do you support the effort to recall two councilmen?

Asked in downtown Chico

Karen Myrdahl
retired deputy sheriff

Yes, I do. I think they're all just a bunch of wacko liberals. It's ridiculous that Chico was exempted from the law allowing faster building after the Camp Fire. All the other cities partook in it, so why shouldn't we?

Joe Hallett
program manager

I think they should relax the environmental codes, but I think they could go a different route than a dramatic recall.

Asha Johnson
retired

I'm totally against the recall and the environmental regulations they want to circumvent with the bill which led to the recall.

Abigail Bruner
writer

From my experience, Karl Ory has been in favor of everyone's best interests and a very reasonable councilman over time. Slowing down to consider environmental impact is something that we seldom do as a culture, but it's wise to consider if we care about this community.

Would you like to earn more on your Bank CDs and Cash?

Learn how to get EQUITY like returns with the FDIC protection of a Certificate of Deposit (CD).

Give your CD rates a Raise!

The Net Real Return on traditional Bank CDs after taxes and inflation often result in negative returns. Market-Linked CDs may stay ahead of taxes and inflation while providing the same level of FDIC Insurance coverage and principal guarantee when held to maturity.

Call our 24hr/7day message line (530) 513-6255 for your FREE EDUCATIONAL GUIDE!

- Market exposure with no risk of principal loss when held to maturity
- Issued by Large National Banks
- FDIC Insurance Coverage up to the statutory limit

Market-linked CDs are typically longer-term investments. FDIC insurance is subject to FDIC limits. Principal invested in excess of FDIC limits is not insured and is subject to the credit risk of the issuer. Principal protection only applies if the CDs are held to maturity. If not held to maturity, a market-linked CD is subject to market risk, and trading in the secondary market may be thin or even nonexistent, and the price per CD may be less than par. Total payment at maturity may be less than what would be received if you had invested in the underlying asset(s) directly. Some market-linked CDs may limit participation in the underlying asset(s). Market Linked CD returns may vary from the indices' or assets' actual performance. Additional risks may apply based on the specific issue.
