

STREETALK

What advice would you give your younger self?

Asked at Saturday farmers' market

Betty Catalanello
hat maker

I would tell all young people to think twice about what you're doing. When you're young, you tend to think you're right about everything. Listen to elders. Enjoy yourself, like yourself and spread good will. Love one another—that's the biggest thing.

Jeremy Hilly
firefighter

Take better care of your liver. If you drink less alcohol, you can avoid a bad hang-over and a hurt liver.

Jori Krulder
teacher

I would love to tell my younger self to be more confident and to play more. Don't be afraid to explore and take risks.

Andres Lugo
unemployed

Don't grow up too fast. Time is short, so you've got to cherish it. It's a beautiful thing when you're young, so you've got to live it.

Would you like to earn more on your Bank CDs and Cash?
Learn how to get EQUITY like returns with the FDIC protection of a Certificate of Deposit (CD).

Give your CD rates a Raise!
The Net Real Return on traditional Bank CDs after taxes and inflation often result in negative returns. Market-Linked CDs may stay ahead of taxes and inflation while providing the same level of FDIC Insurance coverage and principal guarantee when held to maturity.

Call our 24hr/7day message line (530) 513-6255 for your FREE EDUCATIONAL GUIDE!

- Market exposure with no risk of principal loss when held to maturity
- Issued by Large National Banks
- FDIC Insurance Coverage up to the statutory limit

Market-linked CDs are typically longer-term investments. FDIC insurance is subject to FDIC limits. Principal invested in excess of FDIC limits is not insured and is subject to the credit risk of the issuer. Principal protection only applies if the CDs are held to maturity. If not held to maturity, a market-linked CD is subject to market risk, and trading in the secondary market may be thin or even nonexistent, and the price per CD may be less than par. Total payment at maturity may be less than what would be received if you had invested in the underlying asset(s) directly. Some market-linked CDs may limit participation in the underlying asset(s). Market Linked CD returns may vary from the indices' or assets' actual performance. Additional risks may apply based on the specific issue.
