

What are you binge-watching?

Asked at Chico-Con at Silver Dollar Fairgrounds

Tim Bradstreet
artist

The just-released seasons of the '60s series *The Avengers*. One season is in beautiful black-and-white cinematography, which is just so cool.

Adam Kellenberger
Chico-Con showrunner

The Mandalorian is the hot thing now, and I watch it every single Friday. I'm not even a *Star Wars* fan, and I love it. It's a classic tale with a lone wolf and cub, plus influences of *Samurai 7* and *The Magnificent Seven*.

Vern Beezer
armor maker

The Mandalorian. Also, *The Man in the High Castle*, about an alternate universe where the Nazis won World War II. They are both progressive, intelligent and very popular.

Todd Michael Stofa
small-business owner

That new *Demon Slayer: Kimetsu no Yaiba* anime, though I cannot pronounce the second part of the name. It hits the emotions in all the right places. The characters are pretty good, and it has really good animation.

THANK YOU, TO OUR COMMUNITY FOR GIVING THE GIFT OF HOPE

Your Donations of time & money help us provide for those who need it most.

Is it time to reduce your Stock Market exposure?

Learn how to get EQUITY like returns with the FDIC protection of a Certificate of Deposit (CD).

Give your CD rates a Raise!

The Net Real Return on traditional Bank CDs after taxes and inflation often result in negative returns. Market-Linked CDs may stay ahead of taxes and inflation while providing the same level of FDIC Insurance coverage and principal guarantee when held to maturity.

FREE EDUCATIONAL GUIDE!**

- Market exposure with no risk of principal loss when held to maturity
- Issued by Large National Banks
- FDIC Insurance Coverage up to the statutory limit

Market-linked CDs are typically longer-term investments. FDIC insurance is subject to FDIC limits. Principal invested in excess of FDIC limits is not insured and is subject to the credit risk of the issuer. Principal protection only applies if the CDs are held to maturity. If not held to maturity, a market-linked CD is subject to market risk, and trading in the secondary market may be thin or even nonexistent, and the price per CD may be less than par. Total payment at maturity may be less than what would be received if you had invested in the underlying asset(s) directly. Some market-linked CDs may limit participation in the underlying asset(s). Market Linked CD returns may vary from the indices' or assets' actual performance. Additional risks may apply based on the specific issue.
