## Coronado Vein Center

Dr. Robert Coronado has been practicing medicine for 25 years, his early focus as a cardiologist led him to the knowledge that more people suffer from venous vascular disease and varicose veins than any other cardiovascular disorder including heart attack and stroke, yet less than 10% seek treatment. As an interventional cardiologist specializing in the care of these particular disorders, his passion resides in providing an answer to pain and suffering related to varicose veins and venous insufficiency; The fact that varicose veins aren't always visible, doesn't necessarily mean that they are not there; an ultrasound is required to make a definite diagnosis. Some symptoms may include lack of a good night's sleep due to nocturnal leg cramps, restless legs or tired and/or heavy legs leading to premature fatigue with activities of leisure and even

work. Lack of knowledge and awareness can lead to continued suffering that deprives people of years of quality of life. The wonderful team at the Coronado Vein Center is committed to improving and maintaining personal vitality.

## Jeffrey & Shelby Plummer

### OWNERS

**Charlotte, Lyla & Eloise**  
**DAUGHTERS**

Jeffrey and Shelby Plummer first met at a bakery in Sacramento. Shelby was a cake decorator and Jeffrey was the head baker. It was love at first bite! Moving back to Chico when they began their family, an opportunity to work at Upper Crust opened up and they knew it was meant to be.

Their dream of owning a bakery came true last year when they took over as the new owners of Upper Crust after having worked there for over 7 years. Continuing to provide delicious food and beautiful desserts to their amazing customers remains top priority.

"Our customers are incredible, and because of that, we always strive to put out the best products we can. We always want our customers to feel at home when they walk in the door. Everything we make here is made with not only the best ingredients, but is also made with love. The pride we have

in everything we do, is extremely important to us as a business," said Jeffrey.

So, if you're in the mood for an out-of-this-world quiche, a pastry fresh out of the oven, a beautiful cake for a special event or a fantastic salad or sandwich for lunch, Upper Crust is the spot.

## Teresa Smith & Brittany Winchester

Building a reputation one client at a time.

That's how Teresa Smith started her career as a real estate agent, and that is how she intends to keep it. She started out strong in 2005 & became a licensed broker by 2011. Later she brought on Brittany Winchester in 2015 & the two continue to grow their sterling reputation.

The duo has worked hard at being reputable, honest & trustworthy as they all enjoy all aspects of the job.

Being a smaller business gives them more time for one on one client interaction.

They meet new people and learn about their desires and future goals; that way they can help home seekers find their space or help sellers move onto their next chapter.

They strive to go above and beyond for anyone who walks into their office & are extremely involved in all steps of the transaction. They have lived in the area their entire lives which gives them a feel for the soul of this great community.

## John Dahlmeier

### OWNER

The insurance business has changed dramatically since Dahlmeier Insurance Agency first opened its doors in Oroville in 1948.

The family owned and operated business has grown and prospered by adhering to the same core values it began with when John Dahlmeier's dad, Hal, and his uncle Ed were running it. "Old fashioned customer service never gets old" John says. "We continue to hear from new customers that tell us one of the main reasons we earned their business is because we were the only ones to respond to their inquiry in a timely manner".

With a commitment to the professional development of its employees and embracing the tools of developing technologies, the company has combined the past and the present to chart a bright future.

The agency remains independent, selling a range of policies— Home & Auto, Business, Farm, Health, Life, Etc.—from a variety of companies.
