Inspire School of Arts & Sciences

Ten years ago, Faculty and staff from CUSD and Chico State collaborated on the initial design for a locally funded charter school. One that would combine the academic and extracurricular rigor of the larger high schools, with a smaller, more personalized learning environment.

This Charter, called Inspire School of Arts & Sciences, would be motivated by the belief that one size does not fit all students, and, at its core, is a deeply collaborative effort between teachers, parents, students and community members—all dedicated to providing a unique, personalized learning environment in which students are encouraged to explore their interests and develop their talents.

The past ten years have only affirmed what has always known to be true—The model is to be Inspired..

It is Inspire's goal that students graduate with a vision of their future, motivating them to succeed in post-secondary education and beyond! They firmly believe in the unlimited potential of young folks, and invite you to join them in nurturing and actualizing that potential.

Inspire School of Arts & Sciences offers a wide variety of majors visit there website or give them call for a complete list!
