

Do you feel safe in Chico?

**Asked in
downtown Chico**

Stephen Steele
stay-at-home dad

I feel safe living in Chico most of the time. I think we have issues that need a hard look, like homelessness, which needs an empathetic solution. But overall, I think Chico is still safe. There is an element that is troublesome and is more noticeable than in years past.

Samaria Grace
pizzeria girl

I do feel safe, comparatively speaking, to most places in California. Chico is one of the most mellow, safe but not too boring places.

Holly Rowe
mom

I live in nearby Durham, but have visited Chico a lot. Unfortunately, I don't feel safe like I used to. I only come by myself during the day, or at night with a group of friends. There are a lot more people up to no good, but not just the homeless.

Harry Strickland
retired

Yes, I'm downtown a lot, and I do feel very safe. I've been here since 1960. Chico has changed, but I still feel safe.

Market-linked CDs are typically longer-term investments. FDIC insurance is subject to FDIC limits. Principal invested in excess of FDIC limits is not insured and is subject to the credit risk of the issuer. Principal protection only applies if the CDs are held to maturity. If not held to maturity, a market-linked CD is subject to market risk, and trading in the secondary market may be thin or even nonexistent, and the price per CD may be less than par. Total payment at maturity may be less than what would be received if you had invested in the underlying asset(s) directly. Some market-linked CDs may limit participation in the underlying asset(s). Market Linked CD returns may vary from the indices' or assets' actual performance. Additional risks may apply based on the specific issue. May not be suitable for all investors. Investors should carefully read the related term sheet and prospectus and/or disclosure statement before investing. Structured product CDs may be treated differently than traditional CDs for tax purposes and investors should consult their tax advisors.
