

# Touchless Video Doorbell

Stop The Grinch from stealing your porch packages.

**Receive push notifications, text or email alerts  
whenever a visitor is at your front door.**

## Powerful New Features

An expanded 150 degree view lets customers check on doorstep deliveries—right from the Alarm.com app! The HD resolution camera and improved Two-Way Audio make it easier than ever to see and speak with visitors.

### HELPFUL ALERTS

VDB770 uses Video Analytics for rapid people detection and fewer false alert. Customers can know when someone is at the door, even if they don't ring the bell.

### REAL-TIME CONVERSATIONS

It's easy for customers to have two-way conversations with visitors at any time of day or night with improved Two-Way Audio, HD resolution, HDR and infrared night vision.

### INSTANT AWARENESS

Customers can check the live view video feed from the app or record clips automatically when the doorbell is pressed or motion is detected.

Visitors are able to ring the bell just by standing in front of the door—no contact required.
