

How do you feel about President Biden's plans for the country?

Asked in downtown Chico

Annie Fischer
juicer/cashier

I'm definitely much more optimistic. I feel that we're at least in a situation where things can progress and I'm hopeful. Obviously things won't be perfect overnight, but overall I think it's going to be a much better four years for a lot of people than the last four have been.

Killian Grayson

I don't know. I'm not political at all. I didn't even know we were getting a new president.

Carter Cook
nanny

I feel good about it. Probably not an answer you're gonna hear from a lot of people in town, but I feel good.

Robert Farris
land management

I think it's always been a puppet show, and Biden represents a better side of the coin than Trump did.
