was Pioneer Week, LOL) that I did what I was typically inclined to do in such circumstances: without a second thought, I went home, packed my bags, then moved to Chico and assimilated into its culture. As an artist throughout all these years, I was always happy and excited when it would grow and improve and disappointed when (in my opinion) it would wane. So I'm delighted and excited to be reading about bringing back the arts.

Victor Youngblood Chico

# Not *not* sarcastic

I note that of California's 53 U.S. Representatives, my favorite, Doug LaMalfa, and my second favorite, Tom McClintock, were the *only* California representatives to vote against the COVID-19 Hate Crimes Act. Apparently, even Devin Nunes and Kevin McCarthy couldn't stomach not voting for it.

Good to see Butte County can pride itself in that Congressman LaMalfa, and Congressman McClintock from the neighboring district, have supported their like-minded colleagues Marjorie Taylor Greene, Matt Gaetz, Mo Brooks, Jim Jordan and Louie Gohmert, all great political thinkers of the 18th century.

#### Scenic drive no more

Vallombrosa Avenue was designated as a "scenic drive" in the general plan. Staff have made it a major highway in Chico. This roadway is unsafe for pedestrians, children, young families, senior citizens, bicyclists, walkers, school children going to the park on a day trip, wildlife and the environment.

There has not been a speed study for 10 years. The speed limit of 35 mph is too fast for roadway conditions. It has been my experience that people drive 10 to 15 mph, or more, over the speed limit. This is based on my 25 years with the California Highway Patrol. I was a certified speed expert in three superior courts, including Butte County.

There are no crosswalks, limit lines or lane lines; not enough stop signs or deer crossing signs; and all the advisory signs are rigt on the park entrances. The roadway paint is worn out and faded and cannot be seen. You have 35 mph advisory signs in curves, which is crazy.

The speed limit should be set at 25 mph. There should be crosswalks at all park entrances for citizens with more stop signs, so we can have a safe scenic and residential neighborhood. The city of Chico has opened the door for criminal and civil negligence and liability.

I do not want a fatal accident that involves a child or an adult because of the unsafe roadway conditions.

Tom Nickell Chico

Editor's note: The author is a former vice mayor of Chico.

# Ban the bee killers

The bees are dying, and we need to save them. There are 1,600 bee species in California, and 1 in 4 are imperiled. This is important because bees are major pollinators of foods we rely on. However, pesticides that harm bees, like neonics, are in everyday gardening products. Amazon.com is a major carrier of products with these harmful chemicals. Thankfully, we can petition Amazon to stop selling these items.

This is a corporate solution that would take care of the problem at the source. We need support from readers of this paper like you to combat the pesticides killing the bees. Let's call on Amazon to stop selling neonics and save the bees!

#### Correction

In "The one that got away" (Downstroke, May 6, 2021)—a news brief on "Old Brownie," the large fish from the old Barth's Sporting Goods store that's now on display at the Chico History Museum—both the material of the sign and the nature of its disappearance were incorrect. Old Brownie is made of metal and it came down in 1986 when the building was sold. The errors have been corrected in the online version of the story.
