

You have the power to save.

PowerShift by NV Energy is your partner when it comes to saving energy.

And by using less energy, you save money and help protect the environment. As your partner, we're making it even easier to maximize your savings by offering THREE power-saving products all in ONE time-saving appointment. A PowerShift Energy Advisor will come assess your home, identify ways you can save energy and money, set up your smart thermostat* and install energy-saving products. When bundled together, this service is a \$550 value – all for free! To schedule your appointment, call **855-676-9373**.

Save even more

Take advantage of extra savings with our instant discounts on qualifying LED bulbs. Simply go to a participating store, buy the bulbs marked with the PowerShift by NV Energy sign and you'll save money on the spot. Install your LEDs at home, and you'll keep saving on your energy bills.
