

A Sex Cream May Replace Popular Sex Pills for Men

Research shows a new topical may be a highly effective solution for men with failing sex lives; key ingredients activate special sensation pathways right below the skin, enhancing erections and triggering arousal

Daniel Watson
Medical News Today

BOSTON – The medical community now has a safer and more effective alternative to sex pills, which they can immediately start offering to male patients. It will not require a prescription.

The alternative, called *Sensum*⁺®, is an amazing new sex cream that activates a sensation pathway on the penis known as TRPA1.

When applied as directed, it leads to incredible arousal and much more satisfying erections.

It also promotes powerful climaxes and ultimately results in significant improvements in performance.

“Men can expect outstanding sexual improvements with regular use. The penis will become hyper sensitive, making them easily aroused and excitable” explains Dr. Henry Esber, the Boston based scientist who introduced *Sensum*⁺® to market.

“And that’s because *Sensum*⁺® does what no other sex pill or drug has done before – it stimulates a special sensory pathway right below the skin, which leads to phenomenal sensation.”

Overtime, constant exposure (especially if circumcised) leads to decreased penis sensitivity, which can cause problems with arousal and erection quality. There just isn’t enough feeling to get excited.”

“Diabetes, anti-depressants and normal aging also leads to desensitization, a can make the situation even worse.”

“This is what makes *Sensum*⁺® so effective and why the clinical studies and clinical use studies have been so positive.”

MISDIAGNOSIS LEADS TO UNNEEDED PRESCRIPTIONS

After years of clinical research and testing, Dr. Esber and his team have discovered an incredible compound that triggers arousal while helping men achieve erections more easily.

This compound isn’t a drug. It’s the active ingredient in *Sensum*⁺®.

And according to users, it produces sensational results. Many men report remarkable improvements in sexual performance and overall satisfaction.

They are more sexually active than they’ve been in years with the average *Sensum*⁺® user over the age of 50.

Clinical studies show *Sensum*⁺®’s key ingredient activates the TRPA1 sensation pathway right below the skin of the penis.

According to research, many men adults and seniors who suffer sexually have lost sensation in their penis due to constant rubbing and exposure and health related issues such as diabetes, hernia surgery, use of some anti-depressants, multiple sclerosis, and other type of illnesses.

This desensitization often makes sex extremely challenging. Without a 100% feeling in the penis, its next to impossible to

get truly aroused.

Worse, modern day sex drugs have absolutely no effect on sensation and are laden with side effects. They simply stimulate an erection by enhancing blood flow.

It’s why most men are rarely satisfied after taking them and why *Sensum*⁺® users are always stocking up on more and couldn’t be happier.

“We knew the science behind *Sensum*⁺® was there, but we never expected results like we’re seeing. It’s far exceeded our expectations” said a spokesperson for the company.

A STAGGERING 80% IMPROVEMENT IN SENSITIVITY

Researchers have conducted several clinical studies on *Sensum*⁺® and the results from the most recent are undoubtedly the most impressive.

A data analysis of three clinical surveys of 370 men showed that an amazing 80% of *Sensum*⁺® users experienced dramatic improvements while using the cream and as a result were aroused easier and a phenomenal boost in performance.

Additionally, 77.4% of men also reported much more satisfying climaxes, making sex for both them and their partners nearly 300% more satisfying.

“I have full feeling and sensitivity back in my penis. Everything feels better. My erections are harder, I’m more easily aroused, I can finally climax again. This stuff honestly works like magic in the bedroom. I couldn’t be happier at 66!” raves one *Sensum*⁺® user.

HOW SENSUM + ® WORKS

Sensum⁺® is a new sex cream for men that’s to be applied twice a day for the first two weeks then just once every day after.

There are no harmful side effects for either the user or partner. It also does not require a prescription.

The active ingredient is an organic compound known as cinnamaldehyde with a patented combination of sexually rousing extracts.

Research shows that as men get older, they often lose sensitivity to the penis.

Although very subtle, this desensitization can significantly hinder sexual performance and lead to serious problems with becoming aroused and staying/getting hard.

The cinnamaldehyde in *Sensum*⁺® is one of the only known ingredients to activate a special sensation pathway on the penis called TRPA1. Once activated, it restores tremendous sensation to the penis, stimulating arousal and powerful erections.

This would explain why so many users are experiencing impressive results so quickly and why the distributors of *Sensum*⁺® offer their low cost cream with an amazing guarantee.

NEW SEX CREAM MAY REPLACE POPULAR SEX PILLS: Dr. Henry Esber, scientist and chairman of the board at Innovus Pharma, explains the TRPA1 channel, the secret behind Sensum.

GUARANTEE DISCOUNTED SUPPLY TAKES RISK OFF CONSUMERS

A large percentage of men report life changing results with *Sensum*⁺®. That’s why it is now being sold with an above-industry standard guarantee.

“We can only make this guarantee because we are 100% certain this cream works,” says Esber.

“We want to take risk off the consumers. So besides offering massive discounts, we’re also offering this guarantee, so they don’t have to risk a cent.”

Here’s how it works: Use the cream exactly as directed and you must feel a significant improvement in sexual sensations. You must be more easily aroused with harder, longer lasting erections and be having the best sex you’ve had in years.

Otherwise, simply return the empty bottles. Then, the company will refund your money immediately.

HOW TO GET SENSUM + ®

This is the official release of *Sensum*⁺®. As such, the company is offering a special discounted supply to any reader who calls within the next 48 hours.

A special hotline number and discounted pricing has been created for all California residents. Discounts will be available starting today at 6:00AM and will automatically be applied to all callers.

Your Toll-Free Hotline number is 1-800-421-1037 and will only be open for the next 48 hours. Only a limited discounted supply of *Sensum*⁺® is currently available in your region.

Consumers who miss out on our current product inventory will have to wait until more becomes available and that could take weeks. The company advises not to wait. Call 1-800-421-1037 today.
