Men In Italy Don't Need ED Drugs... Now We Know Why!

A secret almost any man can use and perform like a newlywed!

The Inside Story on Great Sex!

This week I got a letter from a reader about a "little secret" that has made her love life with her husband absolutely explosive! (Texas women tell it like it is.)

Tina writes: Dear Karen,

For years my husband and I had a great love life. He was sexy and passionate and so confident. But when he reached his 50s, he lost some of his old spark, especially in the bedroom. The few times we did have sex, his erection was definitely softer, leaving us both unsatisfied. He tried every product out there – prescriptions, testosterone boosters, even those male enhancement pills... but nothing worked. I know this is terrible, but I found myself thinking "My strong, passionate husband has become a sexual weakling." I had no idea it would all turn around in just 3 weeks!

Last month, he came home from a business trip in Europe and shocked me with more sexual energy and passion than he's had in years. Hard as a rock, he tossed me around the bedroom like we were newlyweds and gave me a night I'll never forget! It was incredible – and so exciting!

He flat-out wore me out that night and it's been like that ever since. His erections are so hard and powerful, they trigger the most intense, toe-curling 'moments' I've ever had! So here we are, closer than ever and enjoying the best sex of our lives... in our late 50s!

When I asked my husband about the dramatic change, he said that, on his trip, he stayed in a hotel room next to an older, but very energetic, Italian couple. Every day he'd see them riding bikes or playing tennis. If that wasn't enough, the hotel walls were paper-thin, and he could hear them passionately making love every single night... and sometimes again in the morning!

My husband couldn't help himself, so one day he asked the man his secret. The older man, a nutritionist by trade, smiled and introduced himself as Vito. He said that he was 78, his wife was in her 60s and that after 38 years of marriage, they were still as active and intimate as ever!

Then he took a small pack of tablets from his leather satchel, gave it to my husband and said "These come from a small town up north and are made from naturally pure extracts, packed with densely rich sexual nutrients. Believe me, they will give you powerful erections and you will perform even better than you did as a young man!" Then he laughed and said, "You will become an Italian Stallion – like me!"

Italian Stallion is right! These past few weeks have been a dream. My husband's desire for me is through the roof. He takes me whenever he wants, and he even wakes up most days with a 'morning salute!' like he used to years ago. I love it! He's a sexual powerhouse, beaming with confidence, and our marriage is stronger than ever.

Karen, here's why I'm writing you. The pack of tablets is about to run out and we both desperately want more. I've looked everywhere but can't find them. Do you know anything about these European tablets and how to get some in the States?

Sincerely, Tina C.,
Fort Worth, TX

Tina, you and the rest of my readers are in luck because I do know about these secret European sex tablets. Ever wonder why older men from Italy, Greece, Spain, and all over Europe have the lowest use of ED drugs, but are famous for staying passionate and sexually active well into their 80s? For years, these men have relied on a unique blossom extract to enhance their bedroom power and performance.

Milled on the fertile northern plains, and sold under the name Provarin, these pure plant extracts are cultivated along the sea, then finely ground and pressed into tablets. Famous for fueling extremely hard erections, they have a legendary reputation throughout the European sexual underground. As Giovanni from Milan put it, "It's like sexual rocket fuel, especially for us older guys!"

The best part from a woman's perspective, as you well know, is that the extreme hardness and ongoing power are enough to send us right over the blissful edge! I found out about Provarin a few years ago when I was dating a cowboy from Wyoming. He took Provarin every morning and believe me, that good ol' boy sure rocked my nights!

All-natural and safe to take, Provarin is a well-kept secret reserved for those in the know – and they like to keep it that way. An old-school family business, they still harvest the product by hand and don't do any advertising. They don't need to. Long-term customers and word of mouth ensure their limited stock is sold out every year.

Provarin is surprisingly inexpensive, but as far as finding it in the States, I know of just one importer. When I reached out

"My husband shocked me with more sexual energy and passion than he's had in years. He took me in the bedroom like newlyweds and gave me a night I'll never forget!"

to them for this article, a spokesman told me they were proud to produce the highest quality product for men and couples. He went on to say that any of my readers who call today, will get a special one-time double-discount on a pack of Provarin, plus free priority shipping, AND A BONUS PACK OF 30 TABLETS FREE!

Wow, so there you go, Tina – and the rest of you readers! Use the direct hotline he gave me, so you can be on and off the phone in 5 minutes or less. This offer is only good while supplies last so just give them a call today and mention this article. The number is 1-800-831-0201.

Aren't you glad you asked?
